Guest Speaker: Daryl Marshall

Pikau and Rifle.

Colourful local farming identity and semi-retired vet, Daryl Marshall, has managed to finish writing his hunting memoirs, the script was first started over forty years ago. Southern hunters will recognize or have even hunted in some of the areas Daryl talks about. When as a veterinary student, Daryl was employed from 1965 by the Forest and Range Experiment Station (a branch of the forestry service) during his university vacations, doing ecological surveys on chamois, tahr, red deer and wapiti. The amusing things that happened are captured plus the risky adventures experienced. Many later hunting trips to the West Coast, Fiordland and Stewart island are described. This book is more a story of the hunters than one of shooting trophy animals.

All in all a great read.

So come along and hear what Daryl has to say.

Books can be purchased on the night.

All welcome.
